Quilt Assembly Instructions

Step 1

- Sew the Fabric C rectangles, short sides together, to each coordinating Fabric C strip of the same width. You will have six strips that are at least 48" long.

Step 2

- Place sixteen Hexi A's (colored hexis) randomly in a row and sew them together, leaving 1/4" unsewn on each end of the seams.

- Repeat to make five rows of sixteen Hexi A's each.
- Place seventeen Hexi B's (white hexis) in a row and sew them together, leaving 1/4" unsewn on each end of the seams.
- Repeat to make five rows of seventeen Hexi B's each.

Step 3

- Sew the hexi strips together, alternating a Hexi A row with a Hexi B row to make a grid of hexis.

To attach the hexies, please refer to this video tutorial by Lady Harvatine, which can be found here: <http://www.ladyharvatine.com/2010/03/hexagonia.html>

Step 4

- Using a frixion pen (which irons off) or chalk and a ruler, carefully draw a line down the center of each of the Hexi A rows.
- Cut along this line on each row.

- Sew row 1 to row 6 using the same technique as in Step 3. You will have five rows of hexi's that each measure 5" wide.

Step 5

- Layout the Fabric C strips from widest to narrowest, with a hexi row in between each strip.

- Sew the Fabric C strips and hexi rows together.

- Your quilt top is complete!

- Trim excess fabric from the sides to create a straight edge.

- Baste, quilt, bind and enjoy.
